Specialty Review in Pediatric Cardiology

The AAP Section on Cardiology and Cardiac Surgery, along with the AAP Department of Education, is proud to present an online course designed to strengthen your knowledge in the specialty of pediatric cardiology. Our course provides you with a practical, comprehensive review of the field of congenital and pediatric acquired heart disease. Review recorded presentations and materials on Diagnostic and Therapeutic Procedures, Physiology, Pathology, Embryology, Genetics, Pharmacology, Statistics, Heart Failure and Cardiac Transplantation, and more.

Whether you seek to review the content in preparation for an exam or to help remain current in the field, our course explores the principles of cardiovascular pathology and explains how they integrate with diagnosis and treatment.
