

# ABOUT OUR PROGRAM

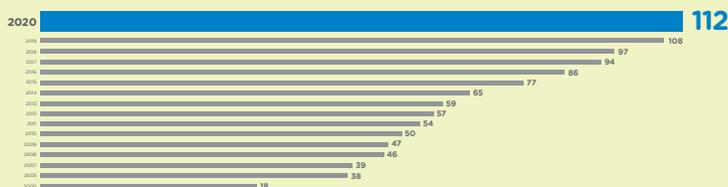

One of the **LARGEST**

pediatric cancer centers in the country, treating **500+** new cancer patients in 2020

**Largest** pediatric sickle cell disease program in the nation, treating **nearly 2,000** unique pediatric sickle cell disease patients each year

Performed **81** **BMTs** in 2020, making us one of the **largest** pediatric BMT programs in the country

**112** faculty members—**more than 6 times** our size in 2000

Nearly **50** advanced practice providers

Ranked **No. 1** in the country for **COG therapeutic clinical trial enrollment**, with more than **500** clinical studies available to our patients

Generated direct costs of **more than \$50 million** in **extramural research funding from the NIH** in 2020

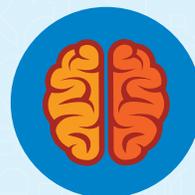

Treated patients from **43** states over the last 5 years

Treated more than **8,000** patients in 2020 across three campuses

More than **55 Dev-T trials** open for enrollment, 14 of which are investigator-initiated by our team, thanks to a **\$20 million** commitment from the **Peach Bowl LegACy Fund**

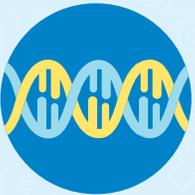

Member of the prestigious **Pediatric Brain Tumor Consortium (PBTC)**—one of **11 centers** nationwide

**Precision Medicine Program** allows for genomic profiling of high-risk tumors to tailor clinical care

One of only **18** I-131 MIBG therapy sites for the COG Phase III trial, and leader of a national trial combining MIBG therapy with immunotherapy for neuroblastoma patients

**Cancer Predisposition Program** provides comprehensive, pediatric-focused genetic counseling and surveillance, as well as cutting-edge genetic tools

**Immunoematology and Immune Dysregulation Program** provides targeted immune modulatory and biological therapies based on immune profiles and genetics

Cared for nearly **1,000 patients** in our Cancer Survivor Program in 2020

Provided **more than 650** consults in the last five years through our **Fertility Preservation Program**

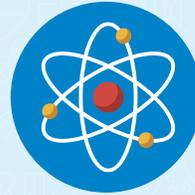

Developed a new treatment strategy called **The Atlanta Protocol**, which has been adopted internationally to care for hemophilia A patients with inhibitors

**One of 21 premier pediatric oncology programs** making up the **COG Phase I and Pilot Consortium**

Pediatric component of the **Winship Cancer Institute of Emory University**, the **first and only** comprehensive NCI-designated cancer institute in Georgia

Offering proton therapy to pediatric oncology patients at the **Emory Proton Therapy Center** in collaboration with Winship Cancer Institute of Emory University
