

## The Promise of Similac®

# FLEXIBLE, SCIENCE-BASED SOLUTIONS TO MEET THE NEEDS OF YOUR PATIENTS

## THE MOST COMPREHENSIVE INFANT NUTRITION PORTFOLIO

Turn to the clinically proven Similac® hospital portfolio of products for flexible, science-based solutions that **help you meet the individualized needs** of infants in your care.

#1 BRAND  
FED IN  
HOSPITALS

OVER 90<sup>YRS</sup>  
OF ABBOTT RESEARCH  
IN INFANT NUTRITION

#1 BRAND  
FED IN THE  
NICU\*

\* Abbott Infant Formula Survey Data on File, December 2018.

## CUSTOMIZABLE SOLUTIONS FOR INDIVIDUALIZED OUTCOMES

The Similac® portfolio of products is designed to be used in combination to help you customize care and optimize treatment for every infant.

With greater flexibility to deliver high-calorie, nutrient-dense feedings, the Liqui-Mix® System lets you customize protein levels with the addition of Liquid Protein Fortifier in an all-liquid solution.

### SIMILAC® LIQUI-MIX® SYSTEM

All-liquid solution eliminates the need for most powder mixing.  
Easy to customize feedings, including 20, 24, 26, 27, and 28 cal/fl oz.

Easy to customize protein levels  
with Liquid Protein Fortifier.

### SIMILAC® NEOSURE®

Nutrient-enriched<sup>†</sup> preterm post-discharge formula shown to improve overall growth.<sup>1</sup>

### SIMILAC® PROBIOTIC TRI-BLEND

First and only multistrain probiotic developed for hospital use.

### SIMILAC® HMF HP CL

Nonacidified human milk fortifier with extensively hydrolyzed protein for easy digestion.

# THE ONLY HUMAN MILK FORTIFIER WITH EXTENSIVELY HYDROLYZED PROTEIN\*

## CLINICALLY PROVEN SIMILAC® HMF HP CL

Supported by **5 clinical studies**, our human milk fortifier  
has been shown to deliver **excellent outcomes**.<sup>2-6</sup>

## SIMILAC HMF HP CL

**IMPROVED TOLERANCE**<sup>3,4,6</sup>

**IMPROVED WEIGHT GAIN**<sup>2-4,6,†</sup>

**IMPROVED BUN LEVELS**<sup>2,4</sup>

**FEWER ADVERSE EVENTS  
AND/OR LESS ACIDOSIS**<sup>3-6</sup>

### SAFE HANDLING AND USE

- Packaged in single-use, ready-to-use packets for precise dosing and nutrient delivery
- Liquid form reduces the risk for environmental contamination
- Packets allow for aseptic handling when used as directed
- Developed with a focus on safe handling for NICU use

\* Launched in 2014. First nonacidified human milk fortifier that is hydrolyzed.

† In the Schanler study, weight gain was improved SDAY1-SDAY15.

# FOR MORE THAN 90 YEARS, SIMILAC® HAS EARNED YOUR TRUST

#1 BRAND FED  
IN HOSPITALS

## THE SIMILAC HOSPITAL PORTFOLIO ADVANTAGE
