Results You Can Count On

Two years of data collected at 36 ADC NICU

BUILT WITH NICU TEAMS, FOR NICUs

Keriton Kare is a HIPAA-compliant, fully automated solution to address the challenges related to feeding management at a NICU. The solution includes two apps – Kare Mom, for moms, and Kare Nurse, for hospital staff.

Keriton Kare saves critical nurse time and eliminates errors. With real-time analytics, notifications and engagement solutions, the platform also enhances the pumping experience for moms.

WHY KERITON?

Increased Safety - identify and prevent errors other scanning systems miss

**Better Outcomes** - helps moms stick to pumping longer and increase production

Lower Costs - spend less on capital and operational expenses

367
Near-Miss Errors
Prevented $2.5M in HIPAA Violations

13,000
Nurse Hours Saved

50%
Reduction in Expirations

40%
Increase in Milk Received

83mL
More Milk Pumped for Every 1 Photo Shown to a Mom

www.keriton.com

KARE MOM

It All Starts with Mom
Labeling each bottle by hand is error-prone.

Moms log each pumping session using smartphones to scan pre-printed barcodes.
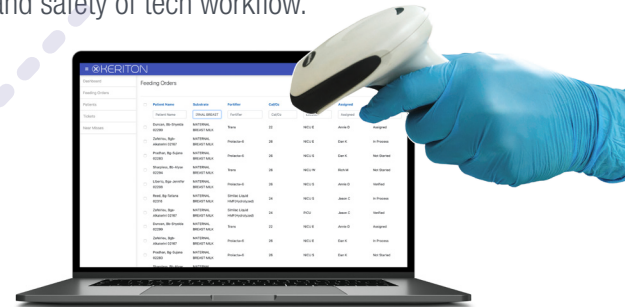

KARE TECH

For Prep, Safety is Key
Feed order review, prep and calculations are manual and inefficient.

Seamless review, sorting, calculation, and assignment of feed orders improves speed and safety of tech workflow.

Pre-Printed Barcode Labeling Is the Hub of the Workflow

Keriton – Test, April
Hospital ABC: NICU East

#191 – 241

ENTERAL USE ONLY

KARE LACTATION

Lactation Consultants Intervene on Time
Lack of timely information delays help to moms experiencing difficulties.

Only Keriton provides access to real-time lactation data, reducing reaction time from days to minutes, to help mothers improve production.

KARE NURSE

For Nurses, Safety is Key
"Bartending" is labor-intensive and error-prone. Mistakes occur, despite 2-RN checks.

Barcode scanning increases reliability, saves time, and eliminates the need for redundant checks.

INTEGRATION

Integrates with EMR & ADT: Allscripts, Athenahealth, Cerner, Epic, Meditech and all others

Integration Partner: **REDOX^**

THE TECHNICAL DETAILS

- HIPAA-compliant cloud server
- iOS, Android, and computer/browser compatible
- Software-as-as-Service (SaaS) platform: no server to host, no IT time to maintain, all new releases/upgrades included
- Enterprise encryption
- Third-party audited
